FOCAL POINT

Bringing It All To Light

Seem® 1 Point Source

A nominal 1.5" aperture LED luminaire that delivers design flexibility with a combination of linear lensed illumination and point source downlights or point source downlights only. Seem 1 Point Source provides a clean visual aesthetic in different configurations to support diverse applications. The sleek luminaire provides the perfect blend of high performance and visual comfort.

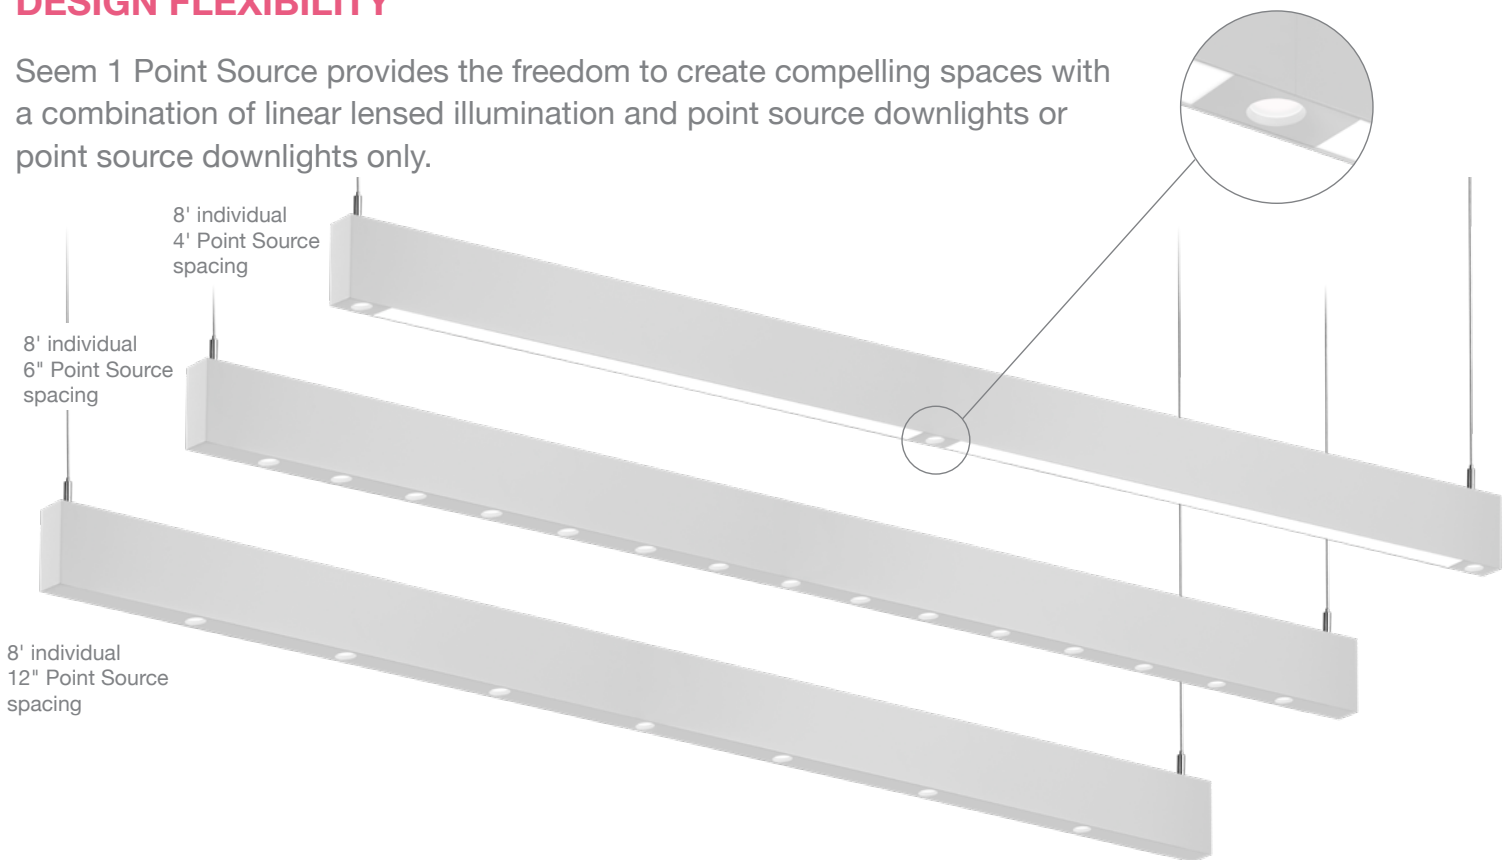

- Recessed, suspended or surface mount
- Individual units or continuous runs
- Individually specified and controlled light sources
- Linear shielding options: Batwing and Flush
- 80 or 90 CRI
- Lumen output options:
 - Direct: 125 - 625 lumens per foot
 - Indirect: 125 - 1000 lumens per foot
 - Point Source: 250, 350 or 450 lumens each
- Point source downlights:
 - Specify with 4, 5, 6, 7, 8-foot on-center spacing or at the ends with lensed illumination, or at 6" or 12" intervals for point source downlight illumination only
 - Available in narrow to wide flood distribution options with beam spreads from 21° to 53°
- Simplified joining and alignment mechanism for easy installation

DESIGN FLEXIBILITY

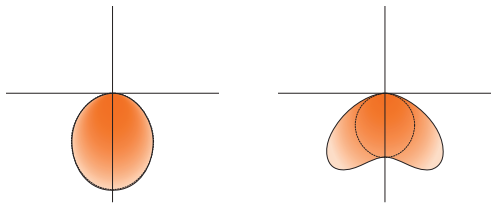

Seem 1 Point Source provides the freedom to create compelling spaces with a combination of linear lensed illumination and point source downlights or point source downlights only.

SUPERIOR PERFORMANCE

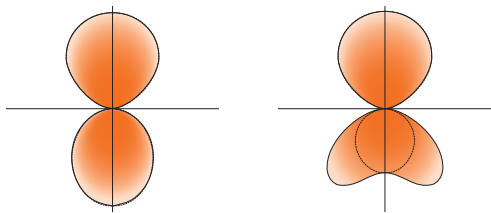

A narrow housing delivers a soft, yet powerful, even illumination ideal for corridors, offices, hospitality areas and conference rooms.

Seem[®] 1

The Seem 1 portfolio is a broad family of nominal 1.5" aperture linear luminaires that provide flexibility to impart a glowing linear elegance and deliver a range of illumination solutions to bring harmony to any interior space.

Go beyond illumination with Seem 1 Acoustic luminaires and AirCore Bridge[™], integrated luminaire and sound-absorbing baffle systems that leverage the narrow aperture and advanced light engine of Seem 1 while improving human comfort and mitigating reverberation issues in open spaces.
